psychology is an interdisciplinary field that attempts to  
study the interplay between environment and  
psychology. The term "environment" here is often used  
somewhat loosely, and environmental psychologists  
might study a broad range of topics, such as how  
architecture affects behavior, how environment in the  
sense of family life or neighborhood culture affects  
behavior, or even how city planning on the macro scale  
can affect behavior. Environmental Psychology -
